ISSUANCE DATE: **February 13, 2025**
RFP NO.: **RFP NO. ASPA25.025 – Geotechnical Evaluation & Report for Star Kist
Atu’u Water Storage Tank**
SUBJECT: **Addendum No. 2**

The American Samoa Power Authority hereby issues Addendum No. 2 to amend Request for Proposals (RFP) requirements. This addendum is issued pursuant to the conditions of the RFP documents and is hereby made part of the RFP. The addendum serves to clarify, revise, and supersede information contained in the RFP. The Offeror must acknowledge receipt of this addendum in the appropriate space provided in the Addendum Form. Failure to do so may subject the Offeror to disqualification.

- 1. **Responses to queries received for this tender are attached on the following page.**

Should you have any questions or need clarification, please call me at (684) 699-3057 or procurement@aspower.com.

Sincerely,

Renee Leotele Togafau
Procurement Manager

Please sign and date below to acknowledge receiving Addendum 2. You may return this document via email at procurement@aspower.com, or the ASPA Procurement Office.

RFP NO. ASPA25.025 - GEOTECHNICAL EVALUATION REPORT - STAR KIST ATU'U TANKS

No	Question	Answer:
1	The RFP has the rates within the federal prevailing wage rates under the Davis Bacon Act. Please confirm this is for the drilling activities. Does ASPA have maximum wage rates for professional engineering services?	ASPA does not have any recommended maximum wage rates for professional engineering services. Please refer to American Samoa's minimum wage rates using the following link: https://www.dol.gov/sites/dolgov/files/WHDLegacy/files/ASminwagePoster.pdf
2	Staff Qualifications - Could you please provide the staff qualifications for professional engineering services? We have registered professional engineers from multiple states, including Hawaii, and we were wondering if this was a staff qualification requirement.	Minimum requirement is for a Professional Engineer registered and active in any of the US States. Proposal should include state where they are registered, and license number.
3	We understand this project is a lump sum project. Our accounting department has asked if ASPA payments are processed by % completion or when all the work is completed?	Successful bidder may submit invoices on a monthly basis of works completed in the preceeding month.
4	We work with many drillers on the islands of Hawaii but have not worked with drillers on American Samoa. If the drillers on the Hawaii islands are not able to ship drills on the island, is there a website with a list of qualified drillers on American Samoa? We also saw that ASPA received a Well Drilling Rig in 2020 and I was not sure if that was something ASPA would be interested in using as well.	There are no drillers or coring drill rigs available in the Territory. ASPA does have a drill rig and well driller, but their services are not available for use under this contract.
